

CSE111 - Quiz 3 (Set A) [Time: 20 minutes]

NAME:

ID:

SECTION:

Design the **Tesla** class to generate the given output.

[Marks: 15]

- Tesla has the licence to open 3 shops only. Opening more shops is illegal.
- Each shop is assigned a label based on how much it contributes to total sales. Top Contributor ($\geq 50\%$), Major Contributor ($\geq 20\%$), or Minor Contributor ($< 20\%$).

Driver Class	Output
<pre>public class TeslaTester { public static void main(String[] args){ Tesla.details(); System.out.println("1====="); Tesla t1 = new Tesla("Downtown"); System.out.println("2====="); t1.sell(1000); t1.sell(3000); System.out.println("3====="); Tesla.details(); System.out.println("4====="); Tesla t2 = new Tesla("Mall"); t2.sell(1000); System.out.println("5====="); Tesla t3 = new Tesla("Airport"); t3.sell(3000); System.out.println("6====="); Tesla t4 = new Tesla("Station"); System.out.println("7====="); Tesla.details(); } }</pre>	<pre>Shop count: 0 Total sales: 0.0 1===== Downtown shop created! 2===== 3===== Shop count: 1 Total sales: 4000.0 Name: Downtown, Sales: 4000 [Top] 4===== Mall shop created! 5===== Airport shop created! 6===== Station shop is illegal! 7===== Shop count: 3 Total sales: 8000.0 Name: Downtown, Sales: 4000 [Top] Name: Mall, Sales: 1000 [Minor] Name: Airport, Sales: 3000 [Major]</pre>
