

CSE111 - Quiz 3 (Set B) [Time: 20 minutes]

NAME:

ID:

SECTION:

Design the **Hub** class to generate the given output.

[Marks: 15]

- The hub class has the licence to open 3 hubs only. Opening more hubs is illegal.
- Each hub is assigned a label based on its contribution to total sales: Core Tier ($\geq 50\%$), Active Tier ($\geq 20\%$), Basic Tier ($< 20\%$)

Driver Class	Output
<pre>public class HubTester { public static void main(String[] args){ Hub.details(); System.out.println("1====="); Hub n1 = new Hub("Dhaka Hub"); System.out.println("2====="); n1.stream(2000); n1.stream(6000); System.out.println("3====="); Hub.details(); System.out.println("4====="); Hub n2 = new Hub("Khulna Hub"); n2.stream(2000); System.out.println("5====="); Hub n3 = new Hub("Sylhet Hub"); n3.stream(6000); System.out.println("6====="); Hub n4 = new Hub("Chittagong Hub"); System.out.println("7====="); Hub.details(); } }</pre>	<pre>Hub count: 0 Total streaming: 0.0 1===== Dhaka Hub created! 2===== 3===== Hub count: 1 Total streaming: 8000.0 Name: Dhaka Hub, Streaming: 8000 [Core] 4===== Khulna Hub created! 5===== Sylhet Hub created! 6===== Chittagong Hub is illegal! 7===== Hub count: 3 Total streaming: 16000.0 Name: Dhaka Hub, Streaming: 8000 [Core] Name: Khulna Hub, Streaming: 2000 [Basic] Name: Sylhet Hub, Streaming: 6000 [Active]</pre>
